

Addressing a critical issue our youth must face ...

Moral Confusion and Cultural Relativism

What is the mindset of the youth in our culture today?

How do many think, reason and approach the various moral and ethical situations that arise? Our youth will encounter and are influenced by these specific tendencies and thinking as they further their education and eventually enter the workplace.

We must prepare them in our CCE programs and at home so they will not be bogged down later by the mindset of today and stay true to the Gospel teachings of Christ and His Church.

*At the heart of the moral confusion today
is the “morality of opinion”*

Other stumbling blocks will be addressed, such as “do no harm” vs. “good and evil,” the quest for certitude in what we must believe, distinguishing unjust laws vs. what is culturally acceptable, whether there is something beyond the 5 senses, natural law and conscience ... others.
